THE BRAND NEW AUTHENTISIGN EXPERIENCE IS HERE!

We're excited to announce an all-new Authentisign. Members have exclusive access to the new experience.

What's new? A simple, intuitive interface: all the tools you need in one place, easily drag, drop, delete and rotate pages, and more.
Faster than ever: the new framework, combined with a more efficient workflow, also allows you to complete signings in less than half the time. New signing templates allow you to save default annotation properties and create automatic signature blocks. Plus, with an active sync with Transactions (TransactionDesk Edition) you only have to enter contact information once.
New insights: Now you can quickly correct rejected signatures and have access into insights, so you know why a signature was not accepted.

The new Authentisign will be running side by side with the classic Authentisign. This will let you get familiar with the new Authentisign, while you can still use the classic Authentisign. To get started with the new Authentisign, be sure to check out these resources:
